

YOUR DINING SERVICES ARE MANAGED BY FLIK & THOMPSON HOSPITALITY

Our partnership enables Merck to support the community through cultural menu collaboration, authentic recipes, and pop-up cultural events that celebrate diversity.

Thompson works with our supplier diversity program to identify and mentor Minority/Women-Owned Business Enterprises (MWBE) to bring into the Merck portfolio. To date, our partnerships with several MWBE-certified vendors account for over 11% of our total spend. FLIK and Thompson support small local suppliers heavily impacted by the pandemic by assisting with the certification process and introducing them to more opportunities within Compass Group.

FLIK and Thompson work to ensure food and wellness play an important part in the partnership. Cultural corners in every café highlight monthly diversity and awareness promotions through themed recipes and educational material. We collaborate with the Merck Interfaith Organization as well as the various Employee Benefit Resource Groups to feature special holiday menus and host virtual events like Lunch & Learns and Cooking Demos. For more information on how to partner with FLIK & Thompson Hospitality, please contact your café manager.

Flik is owned by Compass Group, the world's largest food service company. Flik is a premier food service company that transforms corporate dining into an unforgettable occasion. Our emphasis on service and client satisfaction has led to numerous partnerships with America's leading corporations. www.flik-usa.com
